

Brain Injury Outpatient Program

As specialists in brain injury recovery, we offer an Outpatient Program which includes daily groups led by our speech, occupational, and physical therapy team.

Sample Groups:

- Physical wellness at the community rec center
- Cognition and creativity group
- Social Skills Group
- Community Outings

A Rehabilitation Center Specializing in Community Re-Integration

We offer an outpatient program dedicated to assisting clients with neurologic diagnoses reach their highest level of independence.

To achieve the best results for each client, we create an intensive, customized therapy plan that addresses the unique medical, physical, cognitive, psychosocial, behavioral, vocational, educational and recreational needs of the patient.

We offer a variety of ancillary services to support our clients:

- Transportation to our clinic
- Housing in affordable apartments
- Medication Management for onsite residents
- Food Bank
