A Rehabilitation Center Specializing in Maximizing Quality of Life

When you are injured, even routine activities can be difficult. The Mary Lee Foundation's Rehabilitation Center provides a variety of therapy services in the Austin Area.

Our Specialists provide care for clients with numerous disorders, chronic pain, and for those in need of rehabilitation services.

The ultimate goal with all of our clients is to restore optimal functioning in multiple life dimensions, including medical, social, emotional and vocational.

We are a small non-profit rehabilitation center with a family feel, focused on treating the whole person in cooperation with healthcare providers and family members.
